

The beginning of SP Smart Schooling system by Satya Pal Gupta

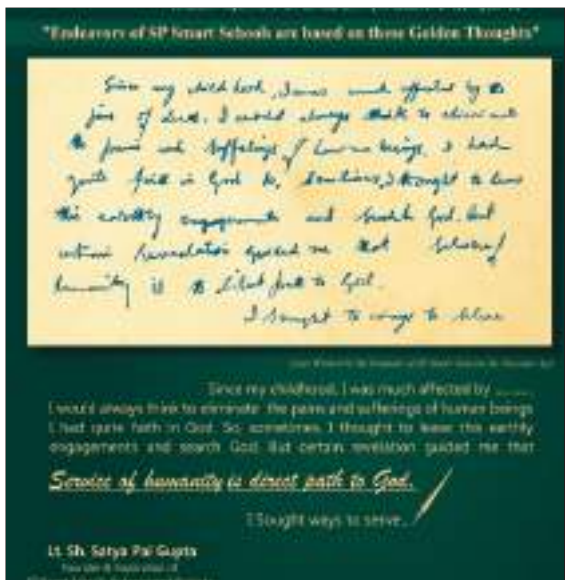

Shri Satya Pal Gupta Ji

Banyan tree is considered as a creator that drives vital life force; moreover, it symbolizes strength, courage and humility. It is thought to be the most venerated tree in ancient India because of its dynamic roots that are deep rooted beneath the earth and nourishes them. Thus, striving for its longevity. In addition, the hanging adventitious roots arising from the aerial branches growing downwards provides extra structural support to plants that symbolises family. Not to mention, because of its huge size, it can encompass huge mass (people) to provide shade and shelter.

Similarly, Shri. Satya Pal Gupta – a man who not forge but also set forth to bring a change in Jammu's education. Just like banyan tree protects people from hot sun; Satya Gupta ji protected umpteen children from fraudulent act by guiding them towards path of power of knowledge. Shri. Satya Gupta is exactly like a banyan tree; he planted the small seed of education unwittingly that it will create a revolution in education ecosystem. Thereafter, he faced resistance from the society and it took years to establish a quality system in education in J&K.

Furthermore, his journey towards establishing a sustainable schooling is filled with labyrinth yet fulfilling. Satya Pal Ji (10 years) had a strong emotional bond with her

mother. He was devoted to her mother; however, she abode in heaven due to sickness and lack of a doctor. After losing her mother, he felt lonely and despair. In agony and pain, he took an oath himself that no matter what happens he will become a doctor so that he can bring his mother back. He gave all his attention to his studies and was devoted to studying hard and becoming a doctor. His interest in studies was piqued and with maturity, he realized that although his mother is never coming back. Satya Pal ji's only mission was to bone up and become a doctor. However, due to some inevitable circumstances, he couldn't fulfill his dream. It was in 1970s when the tuition system was not on the radar, but he was adamant to teach children, especially those who are from the backward region and dropouts. While he was teaching those children, that's when he realized that these children have good potential in their studies, just because teachers and school didn't focus on them they were compelled to drop out of school. He knows that these children when not properly guided can choose appalling acts of wrongdoing like robbery, gangsters, etc. Moreover, some can be fruit sellers or local drivers that will not help them grow either economically or mentally.

He further concedes that our education structure is not stable and developed, and it has no solution for children who are underprivileged or failed in the early standards of their schooling. Satya Pal ji thinks about himself that if he was not unable to become a doctor, he will make sure he helps other students to become doctors in life. He was adamant and serious about his life mission. He rents a small accommodation that he converts into a school named SP Academy. During that time, there was no trend of schooling in private schools; however, Satya Pal ji went against the current and taught children who failed in school, belonged to poor families, etc.

Unfortunately, his heart set in the right place was seen with an evil eye and society scrutinized his thinking and tagged his school as a "school of failure". In the meantime, Satya Pal ji got married and was blessed with 2 daughters and a son. The youngest son Shivang Satya Gupta ji was bullied wherever he used to go out. Everybody used to bully him by saying that his school is a school of failure and that his father gives admission to dumb children and failed students. Shivang Satya Gupta gets despondent and asks his father, "Father, do you give admission to fail students? Is our school meant for dumb and unworthy children?"

(In the late 80s and early 90s children fell into the trap of wrong practices and joining gangster teams)

Satya Pal ji replies, "Yes, I give admission to fail students and unworthy children because I don't want them to choose the wrong path. Today if I don't support them, they will surely harm our society by choosing an

SP Smart Cricket League Kicks Off at Kingstar Sports World, Sarore

SP Smart Kingstar Sports World Hosts Inter-School Competition in Badminton, Table Tennis, Carrom, and Chess

SARORE, JAMMU: The much-anticipated SP Smart Cricket League commenced today at the SP Smart Kingstar Sports World, located in Sarore, Jammu. The league, which will run from December 26, 2024, to January 6, 2025, brings together students from all branches of SP Smart Schools, celebrating the spirit of sportsmanship and showcasing exceptional young cricketing talent.

The event was graced by Smt. Prabha Gupta Ji, the Mother of the School and Trustee of SP Educational Trust, as the Chief Guest. The league and its associated activities were meticulously administered by Smt. Shilpa Gupta, Addl. CEO of SP Smart Schools and Trustee of the SP Educational Trust, under the visionary guidance of Sh. Shivang Satya Gupta, CEO of SP Smart Schools and Chairman of the SP Educational Trust.

With participation from 45 teams across 10 classes and 3 SP Smart Schools, the league stands as a testament to the institution's commitment to fostering sports excellence among its students. The league has already witnessed the emergence of promising young athletes, whose skills and dedication signal a bright future for cricket.

As part of its mission to provide world-class sports facilities and nurture professional athletes for the nation, SP Smart School has unveiled the SP Smart Kingstar Sports World at its Sarore campus. This state-of-the-art facility includes:

- Tennis Courts
- Pickle Ball Court
- Box Cricket Arena
- Cricket Practice Pitches
- Basketball Court

Indoor Sports Complex for games like Table Tennis, Badminton, Carrom, and Chess

The Kingstar Sports World is designed to inspire and prepare students to excel in their chosen sports, combining top-tier infrastructure with a professional training environment. During the inaugural address, Smt. Prabha

Gupta Ji expressed her pride in witnessing the talent and passion of the students. She stated, "This league represents the culmination of our vision to empower students not only in academics but also in the field of sports. Our in-

vestment in world-class infrastructure ensures that they have the resources and opportunities to excel."

Smt. Shilpa Gupta added, "The SP Smart Cricket League is a stepping stone for our students to achieve their dreams in sports. We are committed to nurturing future champions who will bring pride to our institution and the nation."

Sh. Shivang Satya Gupta highlighted, "At SP Smart Schools, we aim to build a legacy of excellence that blends academics with co-curricular pursuits. The SP Smart Kingstar Sports World is a cornerstone of this vision, and we are confident it will produce professional athletes of national and international repute."

The SP Smart Cricket League not only highlights the cricketing potential among students but also reflects the school's vision of holistic development. Stay tuned as the league unfolds, with exciting matches and a showcase of young talent set to inspire the community.

Sarore, Jammu: The SP Smart Kingstar Sports World was abuzz with energy and excitement as it hosted the Inter-School Competition featuring Badminton, Table Tennis, Carrom Board, and Chess (Men & Women) from December 20 to December 24, 2024. The event saw enthusiastic participation from more than 600 students representing all branches of SP Smart Schools, including the Exchange Road branch, NH Sarore branch, and Tawi Vihar Sidhra branch.

The event was graced by Smt. Prabha Gupta Ji, the Mother of the School and Trustee of SP Educational Trust, who served as the Chief Guest. The entire competition was meticulously administered by Smt. Shilpa Gupta, Addl. CEO of SP Smart Schools and Trustee of the SP Educational Trust, under the visionary guidance of Sh. Shivang Satya Gupta, CEO of SP Smart Schools and Chairman of the SP Educational Trust. ▶

Celebrating an era of Academic Excellence and Holistic Growth

The academic year 2023-24 has been a shining testament to the unparalleled dedication, innovative teaching methodologies, and student-centric environment of SP Smart Schools. Our institution continues to redefine educational excellence, ensuring students achieve their fullest potential in academics and beyond. With exceptional results in board examinations, competitive exams, and holistic development programs, we proudly uphold our reputation as a leader in education.

Outstanding Board Results: A Benchmark of Success*

The board examination results for Classes 10th, 11th, and 12th have been nothing short of phenomenal, reflecting the tireless efforts of our students and the unyielding support from our expert faculty. Here's a detailed look at the remarkable achievements of our students:

*Students with Distinctions: 740

The Class 12th results underscore the academic rigor and precision cultivated at SP Smart Schools. Our students have excelled in multiple disciplines, setting a high standard for future batches.

Class 10th students have achieved stellar outcomes, showcasing their strong foundation and readiness to take on the challenges of higher education.

Class 10th Result 2024	
97% & Abv:	45
95% & Abv:	84
90% & Abv:	189
75% & Abv:	394
Class 11th Result 2024	
98% & Abv:	21
97% & Abv:	44
95% & Abv:	83
90% & Abv:	243
Distinctions:	879
Class 12th Result 2024	
Positions:	13
95% & Abv:	47
90% & Abv:	162
Distinctions:	740

The exceptional performance of Class 11th students reflects the robust academic structure and personalized guidance provided at SP Smart Schools, setting the stage for future board and competitive successes.

Board & Competitive Results 2023-24 Highlights

Our students' achievements extend beyond board examinations, with commendable performances in prestigious competitive exams. The highlights of our results include:

1. *Highest Positions in Jammu:* Our students have secured the highest ranks, reaffirming SP Smart Schools' academic leadership in the region.
2. *Highest Distinctions in J&K:* Our distinction count is unmatched, demonstrating the exceptional capabilities of our learners.
3. *2nd Highest Positions Among All JK UT Schools:* SP Smart Schools continues to dominate the education landscape in the Union Territory of Jammu and Kashmir.
4. *12 Selections in JEE Main & 1 Qualified for JEE Advanced 2024:* Our students have showcased their prowess in engineering entrance exams, with one student advancing to JEE Advanced.
5. *8 Selections in NEET 2024:* ▶

Prageet shines bright in Nat'l Roller Skating arena

JAMMU: Prageet Kour, a tenth class student of SP Smart Higher Secondary School excelled in 5th National Ranking Roller Skating Championship held at Amritsar from April 25 to 28, 2024 by clinching a silver medal in 3 Km road race in under 17 years age category. The aforesaid feat achieved by this ace skater of J&K Union Territory was not the first one as she has proved her mettle earlier also in many national events. It is pertinent to mention that Prageet showing outstanding grit and determination has also bagged a bronze medal in 6th School Games Federation of India (SGFI) National Skating Championship held at Satna, Madhya Pradesh from April 11 to 15, 2024, in the same category. It should be noted that both the aforesaid events drew participants from across the nation giving a formidable challenge to make a mark in the races. In her short skating stint till date, Prageet has brought home many laurels by achieving number of 'insurmountable' feats in such a young age. Earlier, Prageet has won a bronze medal in 6th Roller Skating Federation's National held at Bengaluru in 2022 in 1500 meters road race category. Besides, there are many medals in district, state and UT level in her volley and she has been declared state champion also quite a number of times. Apart from this, Prageet has participated in many open nationals held in various parts of the country including Jodhpur, Greater Noida, Raipur, etc.

Shivang Satya Gupta: Leading Revolutionary Changes and Innovations In Indian Education System

Shivang Satya Gupta

Once, there was a physically challenged girl named Shrti who belonged to a middle class family. Both parents were working professionals. The problem? Her parents had no time for her. They were always busy with work and could not support her with her studies. Hence, they enrolled her into 4 different tuitions.

One day, she felt jaded. She had to travel to 4 different locations for her tuitions which made her frustrated and exhausted. Her time and energy was getting wasted. She was in desperate need for a change. She tried to find alternatives to going to tuition but failed. It was then she realized she was in the middle of nowhere.

But because she was tired of going to tuitions and wanted it to change, she was determined on searching for a reliable solution.

To her amazement, one day while her father was reading a newspaper, her eyes hit on the headline that states, "The Only Way To Save Your Tuition Money Is To Join SP Smart School." She read the entire article and found out some information.

Nevertheless, she found a solution to her problem and she got the change she was looking for.

Shivang Satya Gupta, an educationist with compassion and iron-willed determination, did exactly that when the world was faced with a horrendous disease - Coronavirus. Despite all the challenges he faced, he was determined to provide quality education for all his students that ultimately changed the lives of many children.

An effective change leader is one who considers, clearly transmits, and continuously ensures that the key details of the change - why the change is happening, what is changing, and by when the change is needed - are understood by the people who will be implementing or affected by the change. A common contributor to the failure of change initiatives is when leaders do not fully embrace the role of a change leader. Fortunately, Shivang Satya Gupta is one such leader who has effectively embraced the challenges and brought magnitude changes in education sector.

Shivang Satya Gupta is an eminent personality renowned for his schooling system; he is also the CEO of SP Smart School.

He has changed the learning process and implemented some changes to learning methods. As a result, his students' cognitive skills and academic performance improved.

The education sector is beyond any parameter. It is neither a government-funded nor a private-funded sector. A child's education should be organized, regardless of which sector he chooses.

Not to mention, if there are some blockages in the education ecosystem, it is our responsibility to weed out impediments and polish up the processes. There should be no loss in student education and we should aim at maintaining the commitment in students towards their studies. Thus, building his/her character.

Shivang Satya Gupta is willingly reaching out to the government and welcoming them to any assistance they need in ameliorating the education system and policies. Shivang Satya Gupta recounts, "Like Jammu & Kashmir is famous for multiple reasons, I want JK to be famous for education too." Incumbent times, children are moving out for pursuing blinding education. Shivang Satya Gupta's heartfelt desire is to bring children to Jammu for education. All in all, it is everybody's onus to work towards bettering the school system and its process regardless of its sector - private or government. In essence, it requires teamwork to bring positive outcomes in the society and bring radical transformation in the education era. SP Smart School has cut the mustard in providing quality-driven education to children of all caste and creed.

Hybrid-first learning: Getting schools ready for the future

In 2030, what will learning look like? In recent years, we have lived and learned differently. In today's world, education is more critical and uncertain than ever before. The global community has demonstrated incredible energy, commitment, and flexibility over the past few months to respond to the need to move to remote learning.

Although the reopening of schools and colleges has been welcomed by the government, schools, universities, and to a large extent, students as the world learn to live with uncertainty. Is it possible for schools and colleges to revert to the way they were before the pandemic?

As a result of challenges like equity, access, and capacity, most leaders agree that distance learning is not capable of preparing the next generation of learners for life. Conversely, uninterrupted on-campus learning has its challenges, especially the inability to expose students and staff to new and developing concepts. Globally, educators are examining how best to meet on-campus and connect with students remotely as they reimagine education.

In contrast, they are exploring different educational models to meet the needs of their students, like partial re-opening that allows students who lack access to devices on campus to return, synchronous and separated classrooms where some students attend in-person while others participate remotely, and rotational attendance.

In light of all these successful models, a new, learner-centered style of learning has emerged that empowers students to succeed and allows education to continue despite the global health crisis, weather, transportation limitations, etc. Introducing hybrid learning, a new model for future-ready education that blends remote learning's safety, flexibility, and independence with campus collaboration and connection. In this dynamic time, hybrid learning will not only be available in multimodal and interactive formats but also provide learners with enough agility to thrive, as well as thoughtfully designed infrastructure to support active student engagement.

It helps learners and learning take center stage in the hybrid environment, as it is both human-led and

technology-powered at the same time.

A hybrid environment can provide quality learning, but what does it look like?

Students need to be "life-ready" rather than just "work-ready." The hybrid learning model allows institutes to create an environment conducive to the multifaceted growth of future generations. Several factors contribute to this model's efficiency, including data security, personalized engagement, collaboration, skill development, and tailored courses.

Students receive personalized feedback in real time in hybrid classrooms because they have access to tools that allow educators to design lesson plans that are tailored to their individual needs. Technology allows teachers to reallocate 20 to 30 percent of their time to student-centric activities such as building deeper relationships with students

What do we do?

ESPA LEARN employs traditional Indian educational practices and updated technology to realize the greatest potential of the children who come to this planet as a gift from the Almighty, further making humanity more vibrant and prosperous. An opportunity for your loved ones, an e-learning platform, and traditional learning where students attend lectures of their choice, view lectures from their favorite tutors, and access updated content by offering topics/courses without having to time limit.

We utilize this framework to provide services to all the schools across the nation. The end result is the ability to offer our system based process that guaranteed results in students by implementing and updating conventional educational ecosystem with timely tested SP Smart Hybrid Schooling System (also SP Smart Schooling System)

How It works?

Hybrid learning approach is designed to combine the best of face-to-face and virtual learning. It isn't just on campus and it isn't just online: it's both. Students' weekly agendas include on-campus and online classroom activities, allowing them to take advantage of in-person experiences on campus and the latest technology. Our hybrid approach also provides a smart and flexible response to the current world

health situation.

STEP 1: IN CAMPUS CLASSES

Our on-campus hybrid methodology blends cutting-edge on-campus and virtual learning methodologies to provide a holistic learning experience for our students

STEP 2: ONLINE HOMEWORK CLASSES

Online homework classes boost students' performance as each student is monitored by a teacher who is guiding throughout the class and makes sure that the homework has been completed with ease.

STEP 3: ONLINE DOUBT CLASSES

Our online doubt classes aid students to clear all their doubts regarding all subjects and helps them to clarify difficult concepts. Teachers make sure that all students doubts are cleared and none of the students are left unanswered.

STEP 4: IN-CAMPUS EVALUATION

Our on-campus evaluation uses methods and measures to judge student learning and understanding of the material for purposes of grading and reporting. Evaluation is feedback from the instructor to the student about the student's learning.

Is this a solution?

Yes, many educators believe that a new hybrid model of education will emerge, with significant benefits. As the integration of information technology with education accelerates, online education will eventually become an integral component of school education. A student, under the Hybrid Model of education, will be able to get education from home or school (Physical presence), finish assignments and post them, and carry out learning in a self-paced manner. Students can be called to classrooms on a rotation basis for discussions, clarifications of doubts, group assignments, and assessments. For those who do have access to the right technology, there is evidence that learning online can be more effective in several ways. Need to start a school or want to update your school with a result-driven oriented system?

A STORY OF INNOVATION

HOW DID SP SMART SCHOOL ADOPT INTO SP SMART HYBRID SCHOOLING SYSTEM

Hybrid learning transformation is a catch-all phrase for the schools wide changes required to succeed in this rapidly shifting education landscape. SP Smart School is the first school to offer an innovative hybrid technology education that has transformed the lives of many children and will continue to do so in the coming years. SP smart hybrid schooling system is a result-oriented system wherein a student not only gets time to study but also has time to get involved in other curricular activities, such as sports or arts. SP smart hybrid schooling system has revolutionized the entire education sector.

Admittedly, hybrid learning has become the talk of the nation since Prime Minister Mr. Narendra Modi addressed in the high-level meeting to review the National Education Policy. He stressed saying that technology needs to be balanced and that a hybrid system is a combination of both online & offline should be developed. This new reform educational policy will usher great scope for schools to upgrade their learning system and allow a child undergoing massive learning opportunities to build his amazing future life. SP Smart School has already adopted hybrid learning and let us see how this school from Jammu has transformed its journey from being a mediocre school to implementing a hybrid schooling system resulting in huge positive results for its students.

For starters, on Tuesday, March 24, 2020, Prime Minister Narendra Modi called for a complete lockdown of the entire nation for 21 days to contain the COVID-19 pandemic; however, all schools were strained to shut down because of the nation lockdown, which had a significant impact on education.

Moreover, Metropolitan cities integrated online learning swimmingly and provided high-quality education due to the availability of the internet and access to technology. That said, backwoods, in particular, Jammu suffered a severe setback as their paramount need of having internet was out of the radar, and due to the pandemic, it was afflicted. First

and foremost, Jammu had a 2G cellular network which was not efficient enough to carry out online classes. The second reason for jittering was that there were not enough gadgets, tools, and resources to function either.

Furthermore, when the nation went into a lockdown the next day, Mr. Shivang Satya Gupta, the CEO of SP Smart School burned the midnight oil and called a rendezvous with his team, and ordered the procurement of the necessary gadgets and materials to conduct online classes. Everyone chimed in with their ideas: some recommended using Zoom to hold online classes, while others advocated using video lectures; nonetheless, the underlying worry was inefficient

internet access.

Consequently, SP Smart School's first approach to online learning was through a popular text messaging app (group learning) because it was the most fundamental and easy technology that everyone was familiar with. The school was set for its maiden live online session but that wasn't enough, to begin with, seemed a good bet. Later what surprised us was that the rest schools were opting for a free version of a famous video meeting app that lacked basic fundamentals like recording, and monitoring dashboard, and had a limited time limit i.e. 40 minutes per class. Whereas SP Smart School believes in delivering deep-

rooted, high-caliber education and opted for paid enterprise edition which addresses all core problems. For SP Smart School, monitoring the students and teachers was the utmost priority.

Additionally, while the rest of the schools and society were arguing about online learning modules and their ill effects; whereas, SP Smart School considered this an eye-opening in the education system because everyone's accountability was validated and tested.

Not only students' accountability was rigorously reviewed but also teachers' accountability was highly scrutinized. Therefore, it had packed a punch in the schooling system, and thereafter the meaning of hybrid was decoded.

Slowly and steadily, the hybrid system was getting into its movement, and soon SP SMART HYBRID SCHOOLING SYSTEM evolved. The features of the hybrid course are suited to the learning format, whether in-person or online. SP smart hybrid schooling system is a proactive hybrid system designed for students to excel in their careers by providing a systematic, result-oriented module so that they get a lot of time to self-study, giving students around 1500+ hours of self-study under expert teachers' guidance.

It is a learning model that integrates several components (online and/or offline) to provide the best possible mix for learners. This method broadens learning opportunities and assists in tailoring training sessions so that they complement one another and produce a better and more effective learning environment.

Notably, students, academic performance was positively amplified. Average students were now performing better and securing incredible results which were incredulous. The hybrid system indeed facilitated our students to skyrocket their grades and proved to be a result-oriented system.

SP Smart Hybrid School System adopted by SP Smart School creates a long tail value for learners by delivering profound quality education and it has an intense deep understanding of the education that India needs today.

SP Smart Schools Shine at Award Ceremony Hosted by CM Omar Abdullah

JAMMU: In a prestigious award ceremony hosted at the Convention Center, Canal Road, Jammu, the meritorious students of SP Smart Schools were celebrated for their outstanding achievements. Organized in association with one of the leading Hindi newspapers of India, the event recognized excellence in board exams for Classes 10th, 11th, and 12th, with Chief Minister Omar Abdullah serving as the Chief Guest.

The ceremony saw the presence of several dignitaries, including Cabinet Ministers Javed Rana and Satish Sharma, and Advisor to CM Nasir Aslam Wani. Students from across Jammu were honored for their academic brilliance, with SP Smart Schools taking the lead by securing the highest number of positions and distinctions in the Class 12th board results for 2024.

In his address, CM Omar Abdullah congratulated the students for their dedication and hard work, saying, "Your success is a source of pride for all of us. As you move forward in life, keep striving for excellence and continue to bring glory to our region." He encouraged students to focus on their overall development, balancing academics with sports, and urged them to stay away from drugs, emphasizing the importance of maintaining a healthy and disciplined lifestyle.

The event, held in collaboration with one of India's leading Hindi newspapers, highlighted the critical role of institutions like SP Smart Schools in fostering academic and personal growth among students, further strengthening their reputation for excellence.

SP Smart Schools Honoured with 'Best Innovative School' at Indian School Awards

MUMBAI: India – SP Smart Schools has been recognized as the 'Best Innovative School' at the prestigious 15th Edition of the Indian School Awards. The award ceremony, a hall-mark event celebrating excellence in education, was held at the Marriot Hotel in Andheri, Mumbai.

Mr. Shivaang Satya Gupta, the esteemed Chairman of SP Smart Schooling System, expressed his heartfelt congratulations to the entire staff, students, and parents for their unwavering commitment and dedication that led to this momentous

achievement. "This award is a testament to our innovative approach to education and our continuous effort to provide an enriching learning environment for our students," said Mr. Gupta.

Among all the nominations SP Smart Schools was adjudged as Best Innovative School of the year. Mr. Hiren Shah, Head Operations-Maharashtra, represented the SP Smart Schools at the ceremony. Ms. Barkha Dutt, the renowned media anchor presented the award to him. The Indian School Awards has been at the fore-

front of recognizing schools that implement groundbreaking educational practices and foster an atmosphere of creativity and innovation. SP Smart Schools stood out among its peers for its exceptional curriculum, state-of-the-art facilities, and its holistic approach to student development.

The entire SP Smart Schools community is elated by this recognition and remains dedicated to upholding the standards of excellence that have now been nationally acknowledged. This accolade serves as a motivation to continue pioneering in the realm of education, inspiring other institutions to follow suit.

SP Smart Schools, part of the SP Smart Schooling System, is renowned for its progressive curriculum and cutting-edge educational methodologies. With a focus on real-world applications and student-centric learning, SP Smart Schools has established itself as a leader in educational innovation. Due to its innovative approaches SP Smart School has been giving best results year after year.

SP Smart School Students Attend Prestigious NCC Training Camp

JAMMU: Five dedicated 12th class girls from SP Smart School, Sarore campus, J&K, have embarked on an exciting journey to attend the Combined Annual Training Camp (CATC) (J-1) at Nagrota NCC Unit. The camp, which runs from June 22 to July 1, will provide these young cadets with ten days of rigorous training and valuable experiences.

The participating students are Prachi Sharma, Manvi Jamwal, Vanshika, Mahvish Sharma, and Sanchita Sharma. These enthusiastic young women are set to represent their school and community with pride.

In addition to the participation of these students, another school student, Sumit Singh, has made the school proud by winning a Gold Medal in the Tug of War event held at the camp. His achievement highlights the talent and determination of the students from SP Smart School.

The Combined Annual Training Camp is a prestigious event that brings together National Cadet Corps (NCC) members from various schools and colleges. It focuses on instilling discipline, leadership, and a sense of responsibility among the youth. During their time at the camp, the

girls will participate in a variety of activities including drills, physical training, and educational sessions designed to enhance their skills and broaden their horizons.

Earlier this week, NCC Cadets from SP Smart School also participated in a motivational visit to the historic Suchetgarh Border outpost. This visit was organized by NCC Group Headquarters Jammu and provided the cadets with a unique educa-

tional experience, fostering a deeper understanding of the nation's defense and history.

This opportunity allows the students to develop a strong foundation in leadership and teamwork, which will undoubtedly benefit them in their future endeavors. The community eagerly anticipates their return, proud of their commitment and looking forward to hearing about their experiences and achievements.

SP Smart School Excels in Class 8th Board Results in Jammu

JAMMU: In a notable achievement, SP Smart School has emerged as a leading institution in the recently announced Class 8th board results in Jammu district. The school's felicitation program, held at its Exchange Road campus, was a heartwarming celebration of the exceptional accomplishments of its students.

With a commendable performance, SP Smart School showcased its commitment to academic excellence, with several students achieving remarkable results.

The top three scorers, achieving between 99% to 98%, were recognized for their outstanding achievements and were honored with laptops as a token of appreciation. Furthermore, the school acknowledged the efforts of its students by awarding cash scholarships to deserving individuals based on their exceptional performance. A total of 10 students, scoring between 97.9% to 97%, received cash scholarships of Rs. 5000 each. Additionally, 20 students achieving between 96.9% to 96% were awarded cash scholarships of Rs. 3000 each, while 25 students scoring between 95.9% to 94.6%

received cash scholarships of Rs. 2000 each.

This remarkable improvement in academic performance over the past 4-5 years can be attributed to the implementation of SP Smart Hybrid Schooling System. This innovative ap-

proach aims to reduce stress and enable students to dedicate more time to self-study, fostering a conducive environment for academic growth.

This celebration of academic success not only underscores the individual achievements of SP Smart

School's students but also reflects the dedication and efforts of the school's faculty and staff. As SP Smart School continues to inspire excellence, it sets a shining example for educational institutions across Jammu district and beyond.

SP Smart Schooling System announces One Student, One Goal programme

JAMMU: Hundreds of parents & students of various classes participated in an interaction with Shivang Satya Gupta, CEO of SP Smart Schooling System regarding the role and importance of Effective Parenting in achieving the goal of Good education. This interaction was organized during the scholarship Test conducted by SP Smart School Exchange Road, Jammu.

Mr. Shivang shared with the parents and students various modules for preparing students to achieve their goals. While explaining the benefits of SP Smart Schooling System, it was announced that from the current session every student who is availing SP Smart Schooling System will be a part of career centric program "One Student, One Goal". This program is designed to ensure individual care of each student of SP Smart Schooling System.

Parents and students applauded the benefits of SP Smart Schooling System which has already achieved the objective of maintaining excellence in providing future centric

quality education to every desiring student in a simplest way.

SAI organises FIT India event in SP Smart

JAMMU: Under the ongoing FIT India initiative of the Government of India, Department of Youth Affairs and Sports, The Jammu Centre of Sports Authority of India organized an awareness program in the SP Smart School Sidhra in which students, staff and management participated with enthusiasm and fervor.

A detailed demonstration of different forms of Wushu was made by the SAI trainees under the guidance of Sonu Haldwani, Assistant SAI Coach, who also demonstrated several self defence techniques to the students. Students and the staff were also administered Oath of Fitness by the Vice Principal Sh. Pawan Singh.

Aman Sharma, High Performance Director and Incharge STC Jammu explained the importance of FIT India initiative and called upon the students to be Ambassadors of the FIT India mission. He thanked the School Man-

agement for organising the event in highly graceful manner and assured any support from the STC Jammu for their sporting endeavours. Shilpa Gupta, Managing Director and Trustee of SP Smart schools appreci-

ated the role of SAI in organising such event and assured support of her organisation to SAI in organising such events in future.

The event was graced by SP Singh, former National Gymnastics Coach

and Manager J&K Sports Council. Pertinently, FIT India mission is being observed all across the country from November 15 to December 31st to sensitize the masses towards building up a healthy, disease free India.

SP Smart School: Pioneering Competitive & Academic Excellence in Schooling in J&K

SP Smart School, a premier educational institution in Jammu and Kashmir, is setting new benchmarks in both academic and competitive excellence. With outstanding results in the 2024 board and competitive exams, the school embodies the belief that "Every child is born to succeed." Through innovative learning systems, it remains committed to shaping future leaders, innovators, and professionals.

■ Innovative Learning Systems: The Foundation of Excellence

The SP Smart Schooling System and SP Smart Hybrid Schooling model are at the core of the school's success. These frameworks blend academic rigor with holistic development, ensuring students excel both in exams and life. The hybrid model integrates traditional classroom teaching with modern digital platforms, offering students the flexibility to balance learning and personal growth effectively.

■ Addressing the Menace of Coaching & Tuitions

In response to the growing dependency on external coach-

ing and tuitions, SP Smart School has implemented the SP Smart Schooling System. This system has successfully countered the need for additional coaching, ensuring that students no longer require tuitions for either academics or competitive exams like IIT JEE, NEET, CLAT, or any other entrance preparation at the school level. With a comprehensive in-school preparation model, students receive focused guidance and high-quality education, saving both time and resources while building confidence and clarity.

■ Outstanding Class 12th Results

The 2024 Class 12th results are a testament to SP Smart School's unwavering commitment to academic brilliance. The school secured the highest number of positions in Jammu Province, achieved the 2nd highest ranking across J&K UT, and recorded the most distinctions in the region.

■ 47 students scored 95% and above.

162 students surpassed the 90% mark out of 740 students. These exceptional results demonstrate the impact of the school's innovative learning systems and personalized guidance.

■ Excellence Across Class 10th and 11th

SP Smart School's commitment to academic growth is reflected across all grades:

Class 10th: 84 students scored 95%+, 189 students achieved 90%+, and 45 crossed the 97% mark. A total of 394 students secured 75% and above.

Class 11th: 44 students scored 97%+, 83 students achieved 95%+, and 243 crossed the 90% mark, with 879 distinctions awarded.

These achievements highlight the school's focus on excellence across all academic levels.

Competitive Exam Success: A Holistic Approach
SP Smartians excelled in competitive exams in 2024: 12 students cleared JEE Mains, with 1 student qualifying for JEE Advanced.

8 students were selected through NEET 2024, continuing the school's tradition of producing future doctors. 3 students qualified for CLAT 2024, reinforcing the school's emphasis on diverse career paths.

In addition, many alumni have excelled in public service exams like UPSC, further reflecting the effectiveness of SP

Smart School's holistic educational model.

■ Global Opportunities through International Collaborations

Through a partnership with SPDIASHILL, an abroad education and immigration consultancy, SP Smart School offers students access to top foreign universities. This collaboration ensures that students are prepared to seize global opportunities and pursue their dreams internationally.

■ A Bright Future Awaits

At SP Smart School, we remain steadfast in our belief that "Every child is born to succeed." Our achievements in 2024 reflect this guiding principle, empowering students to reach their full potential.

With a blend of academic excellence, competitive success, and global exposure, SP Smartians are poised to become tomorrow's changemakers. As we move forward, we remain committed to nurturing every student's talent, confidence, and resilience, building a legacy of success and preparing them to thrive in an ever-changing world.

SP Smart School Exchange Road Leads the Way in Environmental Awareness: A Collaborative Effort with Jammu Municipal Corporation

JAMMU: Introduction: In a commendable initiative aimed at fostering environmental consciousness, SP Smart School Exchange Road, in association with Jammu Municipal Corporation, recently organized an Awareness cum Interaction Program on the detrimental impact of polythene use on the environment. The event, graced by the presence of distinguished guests, including the Chairman of SP Educational Trust, Sh. Shivang Satya Gupta, Mayor Rajinder Sharma, Dy. Mayor Sh. Baldev Billawaria, and the school staff, marked a significant step towards environmental education and sustainable practices. Understanding the Environmental Losses: The Awareness cum Interaction Program delved into the multifaceted environmental losses caused by the rampant use of polythene. Through informative presentations, discussions, and interactive sessions, students gained insights

into the detrimental effects of polythene on ecosystems, wildlife, and human health. The event aimed not only to educate but also to instill a sense of responsibility among the students towards adopting eco-friendly alternatives. Distinguished Guests and School Leadership: The presence of key figures in the city and education leadership added gravitas to the event. Sh. Shivang Satya Gupta, Chairman of SP Educational Trust, Mayor Rajinder Sharma, and Dy. Mayor Sh. Baldev Billawaria, alongside the school staff, actively participated in discussions, showcasing their commitment to addressing environmental challenges. Collaboration with Jammu Municipal Corporation: The collaboration with Jammu Municipal Corporation underscored the significance of public-private partnerships in addressing environmental issues. Representatives from the municipal corporation shared

valuable insights into waste management strategies and the importance of community involvement in creating a sustainable, eco-friendly environment. Interactive Sessions: The event featured interactive sessions where students had the opportunity to engage with experts and policymakers on environmental concerns. Students actively participated in discussions, raising questions, and contributing ideas for fostering sustainable practices within the school and the broader community. Commitment to Eco-Friendly Alternatives: SP Smart School Exchange Road demonstrated its commitment to eco-friendly alternatives by incorporating practical demonstrations of sustainable practices. From showcasing reusable alternatives to polythene to organizing hands-on activities, the event aimed to empower students with actionable steps they could take to reduce their envi-

ronmental footprint. Pledges for a Greener Future: To culminate the event, students and dignitaries alike participated in a pledge ceremony, committing to adopting eco-friendly practices and promoting environmental sustainability. The pledges served as a symbolic gesture, signaling the collective determination of the school community and city leadership to make a positive impact on the environment. The Awareness cum Interaction Program at SP Smart School Exchange Road stands as a beacon of environmental consciousness, fostering a sense of responsibility and urgency among the students and the broader community. The collaboration with Jammu Municipal Corporation, the active involvement of distinguished guests, and the commitment of the school leadership collectively contribute to a vision of a greener, more sustainable future.

Unlocking Global Opportunities: SP Smart School's Collaboration with SPDIASHILL for Foreign Education

In today's interconnected world, the pursuit of education knows no boundaries. As students aspire to broaden their horizons and explore new opportunities on an international scale, institutions like SP Smart School are at the forefront of facilitating these aspirations. Partnering with SPDIASHILL, SP Smart School opens doors for students to embark on a transformative journey of foreign education, paving the way for a promising future.

Introduction: Education is not just about acquiring

AVINAY BHAT (Fermilab) USA

knowledge; it's about expanding one's perspectives, embracing diversity, and fostering personal growth. With globalization shaping the landscape of education, students are increasingly seeking opportunities beyond their home countries to gain a competitive edge in the global market. SP Smart School recognizes the importance of providing students with access to international education and has joined forces with SPDIASHILL to make this vision a reality.

The Collaborative Partnership: SP Smart School's collaboration with SPDIASHILL represents a strategic alliance aimed at empowering students to pursue foreign education seamlessly. Through this partnership, SP Smart School leverages SPDIASHILL's ex-

pertise in study abroad and immigration services to offer comprehensive support to students aspiring to pursue higher education in renowned institutions across the globe. By combining resources and knowledge, both institutions create a synergy that maximizes opportunities for students and enhances their educational experience. Empowering Students Through Education: At the core of SP Smart School's mission is the belief in empowering students to reach their full potential through education. By collaborating with SPDIASHILL, the school reinforces its commitment to providing students with access to quality education that transcends geographical boundaries. Through a range of specialized services and personalized guidance, students are equipped with the tools and resources they need to navigate the complexities of foreign education and pursue their academic aspirations with confidence.

A Gateway to Global Opportunities: Through SP Smart School's collaboration with SPDIASHILL, students gain access to a myriad of global opportunities that pave the way for a bright and promising future. From prestigious universities in the US, UK, Germany, Australia, New Zealand, and beyond, students have the opportunity to pursue their academic passions in world-class institutions renowned for their excellence in education. Additionally, the collaboration opens doors to exciting career

prospects, enabling students to gain valuable international

VISHAL SINGH (The Ohio State Univ.) USA

tional exposure and broaden their horizons. Comprehensive Support Services: Recognizing the importance of comprehensive support services, SP Smart School and SPDIASHILL offer a wide range of services to students, ensuring a seamless and enriching experience throughout their foreign education journey. Creating Global Citizens: At the heart of SP Smart School's collaboration with SPDIASHILL lies the shared vision of creating global citizens who are equipped to thrive in an increasingly interconnected world. Through the transformative power of education, students are not only equipped with the knowledge and skills they need to succeed academically but also imbued with a global perspective that fosters empathy, understanding, and cultural appreciation. By nurturing the next generation of global citizens, the collaboration contributes to building a more inclusive and interconnected world.

Our Students in Top Foreign Universities

At SP Smart School, we take immense pride in the accomplishments of our alumni who have pursued their academic and career aspirations in esteemed institutions worldwide. These exceptional individuals serve as shining examples of the transformative power of education and the impact of SP Smart School's commitment to nurturing talent and fostering excellence. Here are some inspiring stories of our alumni excelling in top foreign universities:

1. Avinay Bhat
- Alma Mater: SP Smart School

Current Position: Physicist at FERMILAB, USA

- Feedback to School (2009): "I want to be a physicist and explore the universe."

Avinay Bhat, an alumnus of SP Smart School, is living his childhood dream of becoming a physicist at the renowned FERMILAB in the USA. His journey from envisioning his aspirations in 2009 to fulfilling them at FERMILAB is a testament to the power of determination and the pursuit of knowledge.

2. Vishal Singh

Alma Mater: SP Smart School (Batch 2009-11)

Current Institution: Ohio State University, USA

- Feedback to School: "Great leaders and inventors are not born. They are motivated and inspired to do great things by great teachers in great institutions like SP Smart School."

Vishal Singh, an alumnus of SP Smart School, is pursuing his academic journey at Ohio State University in the USA. His heartfelt message of gratitude to his alma mater reflects the profound impact that SP Smart School has had on shaping his academic and personal growth.

FROM PAGE-1

The beginning ...

obnoxious path." Satya Pal ji made a daily practice to talk with his son and guide him and give him all the information he needs so that he understands the ideology and mission behind his school. In 1990s, Satya Pal ji got an opportunity to interact with a very high profile political leader and he personally liked his ideology and motto about education. Satya Pal ji's interest was heightened in politics and he was welcomed by the ruling party (at that time) of India. High authorities loved Satya Pal ji's leadership qualities and he was elected as a leader from Jammu in the 1990s. He gets recognition and was famous in then ruling party of India. Later, in the year 1994, one day while Satya Pal ji was heading toward Delhi for a meeting, a heart-wrenching accident occurs and he leaves the world peacefully. After Shivang's father's death, he became the scion of SP Academy.

After reading his father's diary, Shivang Satya Gupta ji had an eye-opening realization that his father's only burning desire was to spread this schooling structure to all the government schools. Government schools have all the infrastructure and good teachers, and it has great potential to deliver high-class education but somewhere they lack a solid foundation process.

With incessant refinement in the process and the system getting strong, students' performance is highly improved. In the following years 2004 and 2005, the school system got strengthened and in the year 2007, the school receives the first position and it is believed that it was possible because of the evolution of the system. Past 27 years, Shivang Satya Gupta ji has created and developed this system and if government schools implement SP Smart Schooling System, the results will certainly follow. It is a proven and guaranteed process.

Further, Shivang Satya Gupta ji takes support from Ed-tech and asks them to create a schooling system name SP Smart Schooling System. During a lockdown when online classes were introduced thus from there hybrid system came into existence. This system is implemented in 6 schools and around 5000 students are utilizing this system to their advantage. The results speak for themselves. With this system, there are numerous IT selections, NEET, and JEE selections. This is only the dream of Shivang Satya Gupta ji

because this dream was his father's that has etched in his heart, to spread SP Smart Hybrid Schooling System to all government schools and make education free to all students in SP Smart School but money is a basic need to give for any service because with that money teachers' salaries are paid and other basic necessities like books, etc are been covered. Now the time has come to spread this schooling system to all the schools and bring a revolution in the education sector because with 27 years of research and hard work, it's high time to bring a sea change in the system and structure of school and create a positive impact on the lives of the children and parents.

SP Smart Cricket ...

Fostering Holistic Development

Recognizing that a well-rounded education goes beyond academics, SP Smart Schools is committed to creating a balance between intellectual growth and physical development. Sports activities such as these not only promote physical fitness but also enhance students' strategic thinking, decision-making skills, and resilience. Participation in sports builds teamwork, discipline, and leadership qualities—traits that are essential for success in every field.

Speaking at the event, Smt. Prabha Gupta Ji remarked, "Sports are an integral part of a child's development. By engaging in these competitions, students learn valuable life skills that complement their academic achievements."

A Leap Towards Excellence in Sports

Having established itself as a leader in academics across Jammu & Kashmir, SP Smart Schools is now taking a significant leap in the field of sports by providing world-class infrastructure to its students. The SP Smart Kingstar Sports World is a state-of-the-art facility equipped with international-standard amenities, offering students a platform to excel in multiple sports disciplines, including indoor and outdoor games.

Sh. Shivang Satya Gupta highlighted, "Our aim is to ensure that students have access to opportunities that enable them to dream big and achieve their goals. With the SP Smart Kingstar Sports World, we are laying the foundation for a generation of students who can compete not just at the national level but also on global platforms."

Smt. Shilpa Gupta added, "The enthusiasm

and talent displayed during this competition reaffirm our belief that SP Smart Schools are poised to redefine education in Jammu & Kashmir by blending academic excellence with outstanding sports infrastructure."

Inspiring the Future

The competition concluded with a grand closing ceremony, where winners and participants were celebrated for their achievements and participation. This event reinforces SP Smart Schools' vision to nurture students who are academically proficient, physically fit, and intellectually sharp, paving the way for their success in diverse fields.

Celebrating an era ..

The NEET results highlight our strong medical coaching, producing future healthcare professionals.

6. 5 Selections in CLAT 2024: The remarkable performance in CLAT underscores our ability to nurture aspiring legal professionals.

A Proud Moment: Harneet Singh's Exceptional Success

SP Smart Schools takes immense pride in celebrating the achievements of Harneet Singh, a former student who has brought laurels to our institution. Harneet secured 8th position in Class 12th during his time at SP Smart Schools, and his journey since then has been nothing short of inspiring. Harneet has achieved All India Rank 177 in the UPSC Civil Services Exam 2023, cementing his place among India's brightest minds. Additionally, he is an **IIT Gold Medalist, reflecting his academic brilliance and determination to excel in every endeavor. His success story is a beacon of inspiration for our current students, demonstrating the heights they can achieve with hard work and dedication.

SP Smart Schooling Programme: Shaping Future Leaders

At SP Smart Schools, our focus goes beyond academic success. We emphasize holistic growth, equipping students with the skills and values necessary to thrive in all spheres of life. Our unique schooling programme is a comprehensive blend of rigorous academics, life skills, and character-building activities. Key highlights of the programme include:

1. Well-Designed & Result-Oriented Learning Process

Our curriculum is meticulously crafted to deliver exceptional results in board and competitive exams. Each aspect of the learning process is tailored to maximize student un-

derstanding and retention.

2. No Need for Tuitions or Coaching
With a robust in-school learning system, students receive all the guidance they need to excel. This eliminates the need for external tuitions, ensuring focused and stress-free learning.

3. Systematic Self-Study Time
Students engage in up to 9 hours of systematically designed self-study daily, guided by expert faculties. This disciplined approach fosters self-reliance and deepens conceptual understanding.

4. Comprehensive Education
Our programme integrates academics with practical life skills, moral and spiritual education, and character-building initiatives. Students are groomed to develop a strong, positive personality that will serve them well throughout life.

5. Safe and Disciplined Environment
SP Smart Schools offer a secure and caring atmosphere that promotes proper care and personality development. Separate learning days for boys and girls ensure a comfortable and focused learning experience.

6. Student-Friendly Learning System

Our 24x7 teacher support system ensures that every student's doubts and concerns are addressed promptly. This continuous guidance fosters confidence and academic excellence.

7. Personalized Individual Care
Stress-free learning is at the core of our philosophy. Each student receives personalized attention, ensuring their unique needs are met.

8. Regular Parental Updates
Parents are daily updated on their child's performance and progress, fostering transparency and collaboration between school and home.

9. Career and Global Placement Guidance

We offer regular counseling and guidance sessions led by industry experts. These sessions prepare students for diverse career paths, including foreign education and global placements.

10. Integrated Preparation for IELTS/PTE and Aptitude Tests

For students aspiring for global opportunities, we provide integrated preparation

for exams like IELTS and PTE. Additionally, students receive guidance for government job exams post-Class 12.

11. Continuous Micro-Assessments
Stress-free preparation is ensured through regular micro-assessments. These tests identify areas for improvement, ensuring students are always exam-ready.

12. Exposure to Emerging Technologies

Students are introduced to advanced technologies and global career opportunities under the guidance of industry professionals. This futuristic approach equips them with the skills needed for the evolving world.

13. Futuristic Gurukul Concept
Our Gurukul-style education system combines traditional values with modern learning techniques to achieve maximum learning outcomes.

14. Incentives for Excellence
Students scoring 98% and above in Class 10th receive high-configuration, upcycled laptops upon admission to Class 11th. Additionally, scholarships are available for meritorious students.

15. Career Counseling and Placement Assistance

In-school counseling sessions help students explore career options and secure placements aligned with their interests and strengths.

16. 250+ Preparation Days
With over 250 revision and preparation days in a session, students are thoroughly equipped to excel in exams.

17. Interactive Learning Hours
Each working day includes 6+ hours of interactive learning, ensuring a deep understanding of concepts and active student engagement.

Conclusion: Transforming Dreams into Reality

At SP Smart Schools, we believe in nurturing every student's potential and helping them achieve their dreams. The exceptional results of the academic year 2023-24 are a testament to our commitment to excellence. By fostering a balanced approach to academics and life skills, we prepare our students to excel not only in exams but also in their future endeavors.

Join SP Smart Schools and be a part of this journey toward greatness, where every student emerges as a champion!
